

Both Sides of the River

Leonard Searcy

STARKS
Not even death.

HUNT
What's that?

STARKS
Nothing.

HUNT
Did you know this woman?

STARKS
No.

Joseph looks at Starks.

JOSEPH
What did you find out?

HUNT
Victim died yesterday afternoon or early evening. The cause of death was blunt force to the head with some sort of gold object. Really crushed her skull and damaged her brain causing it to bleed out internally, riveting. Anyway, there was no other evidence that could tell me who your suspect is, no finger prints, no other blood, nothing.

Starks is obviously effected by the examination. Trying to keep his composure.

STARKS
You said Gold?

HUNT
Yes, gold and Bronze. I had the lab test the residual material found embedded in the victims head. The murder weapon is something maybe gold plated.

Joseph is concerned about his partner.

JOSEPH
The second victim?
